---

As an avid Internet user Lana is well positioned to write for new media. She can summarise your business profile for the web, write topical blogs, write web page content for both products and services, write captivating newsletter, and she can even Tweet and ghost blog for you.

Visit a few very successful live examples of website profiles and web page copy that Lana has written.

### Website Content Writing

#### The Venue

Lana was contracted to write all of the website content for The Venue

From the moment it opened its doors in 1999, [The Venue](#) Venue became an icon for sumptuous hosting of lavish events, both small or large; always intimate. The Venue is housed in Melrose Arch Johannesburg's discrete whirl of exclusive dining and endless shopping, setting the tone for luxury. Central and securely situated with easy access to the M1 highway, and ample underground parking facilities.

#### Law For Women

Law for Women was founded to address the growing need for a women-focused firm and the difficult issue of marriage and family disintegration.

[Law for Women's](#) strength is our team of women providing legal services, who between them have more than a century of life, legal and administrative experience. We have achieved credibility and first-hand experience, rather than merely studying cases.

### Domba Executive Suites

Johannesburg's [Domba Self-Catering Executive Apartments](#) are ideally situated within easy reach of all amenities. On your doorstep, you'll find business parks, restaurants, boutiques, the world's largest distance learning university, UNISA, as well as plush shopping malls and office parks in Roodepoort, Northcliff and Floracliffe.
